WHEREAS, in 2008, the Oil Conservation Division of the New Mexico Energy, Mineral, and Natural Resources Department ("OCD") required I&W Brine Well Services to shut in its brine production well near the intersection of US Highways 62/180 and 285 in southern Carlsbad ("South Y Brine Well"); and

Million Dollars and with the State committing the remainder of the necessary funds; and

WHEREAS, the County has been told that it must approve this proposal before Sunday, January 28, 2018, in order to have the proposal considered by the New Mexico State Legislature.
